

**I went to Granbury TX (SW of Ft.Worth) to see the 2024 solar eclipse.**

**Local shops celebrate w/ Moon Pies & "I've been mooned" shirts.**

**Watch the eclipse w/ sister Margaret & friends Josh & Debbie.**

**8 minutes to totality and the skies are cloudy!**

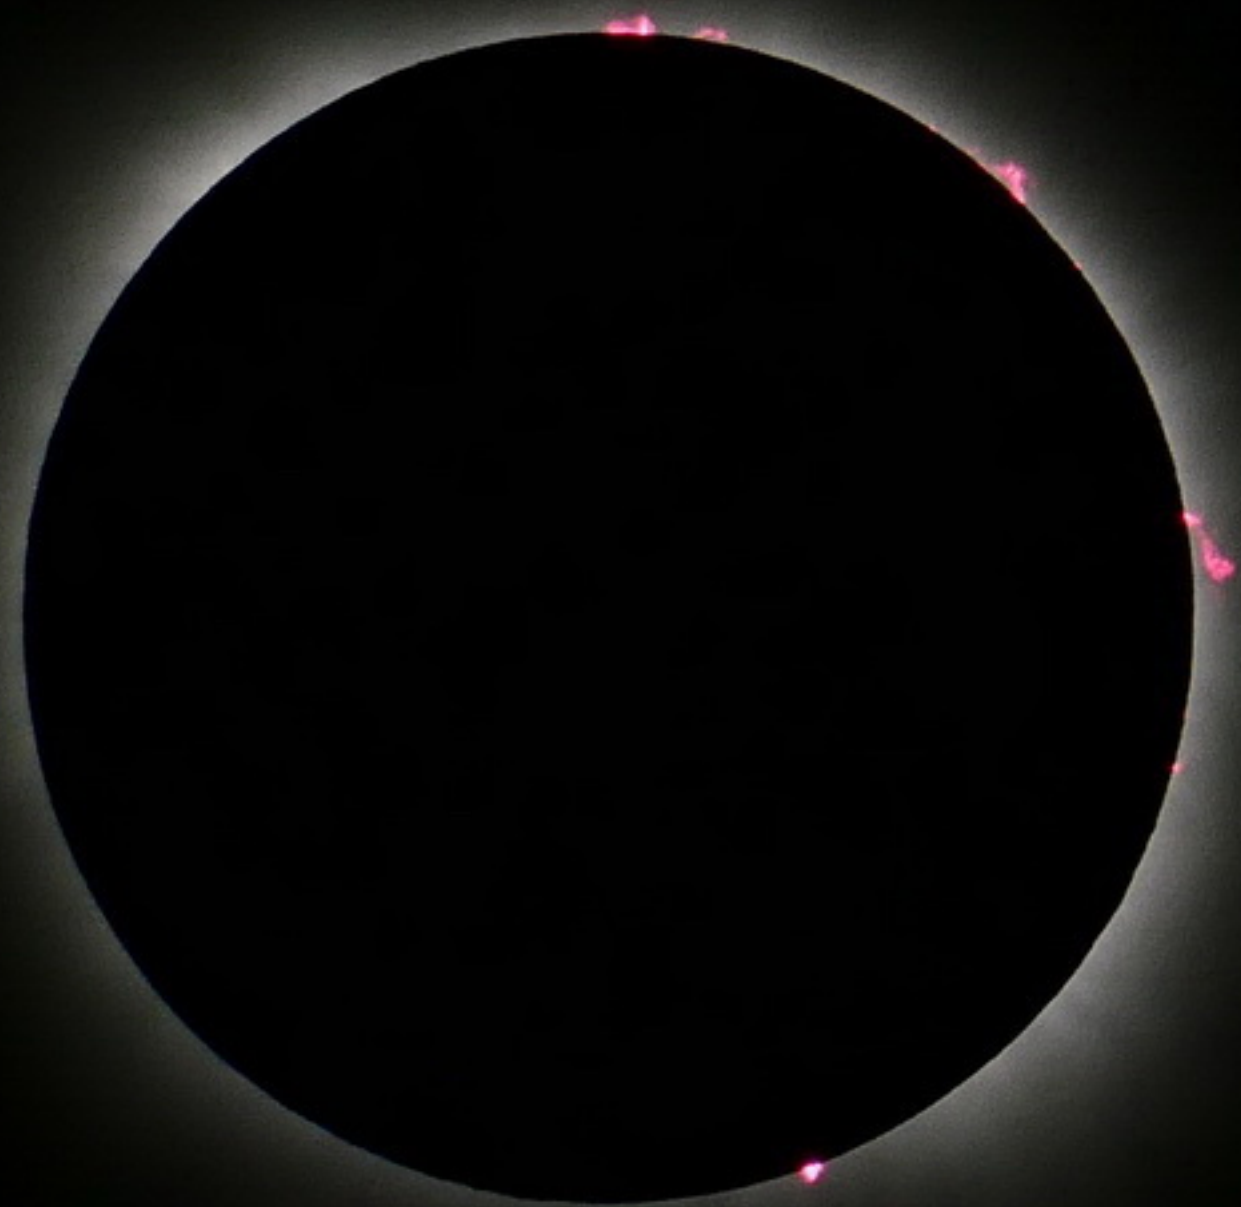

... and then the clouds part, the sky darkens, and stars appear.

**(same picture, 1/64th exposure)**

**detail showing the solar flares.**

**Wow!**
